Window of Guilt Jennie Spallone 2013-04-10 Chicago real estate agent Laurie Atkins is gardening beneath the relentless August sun when her dog's frantic barks divert her to a dead body sprawled on the front acreage of her Wisconsin summer home. She rushes inside to phone the police, but the body disappears. Laurie begins to doubt her own sanity. Then the unidentified body turns up on the driveway of Helga Beckermann, her devious neighbor. When her emotionally withdrawn husband skips town on the holiest day on the Jewish calendar, Laurie uncovers truths she'd rather deny. Her family in peril, Laurie enlists the help of two women she thinks she can trust: former Chicago Tribune investigative reporter Mitzy Maven, and tough-talking CPD detective Maggie O'Connor. "A brilliantly crafted story of what happens when life insurance companies play God, and how the dark desires of deceit and greed come home to roost." --R.P.Dahlke, author of A Dead Red Heart and A Dead Red Cadillac "A dramatic, fictional portrayal of the issues health insurance claimants face when confronted by fraudulent claims handling practices." -- Robert A. Shipley, AV Rated Trial Attorney

[The Encyclopedia of Housing, Second Edition](#) Andrew T. Carswell 2012-05-31 Since publication of the groundbreaking Encyclopedia of Housing in 1998, many issues have assumed special prominence within this field and, indeed, within the global economy. For instance, the global economic meltdown was spurred in large part by the worst subprime mortgage crisis we've seen in our history. On a more positive note, the sustainability movement and "green" development has picked up considerable steam and, given the priorities and initiatives of the current U.S. administration, this will only grow in importance, and increased attention has been given in recent years to the topic of indoor air quality. Within the past decade, as well, the Baby Boom Generation began its march into retirement and senior citizenship, which will have increasingly broad implications for retirement communities and housing, assisted living facilities, aging in place, livable communities, universal design, and the like. Finally, within the last twelve years an emerging generation of young scholars has been making significant contributions to the field. For all these reasons and more, we are pleased to present a significantly updated and expanded Second Edition of The Encyclopedia of Housing.
