The Descent of Love Bert Bender 2015-12-15 Upon its publication in 1871, Charles Darwin's *The Descent of Man and Selection in Relation to Sex* sent shock waves through the scientific community and the public at large. In an original and persuasive study, Bert Bender demonstrates that it is this treatise on sexual selection, rather than any of Darwin's earlier works on evolution, that provoked the most immediate and vigorous response from American fiction writers. These authors embraced and incorporated Darwin's theories, insights, and language, creating an increasingly dark and violent view of sexual love in American realist literature. In *The Descent of Love*, Bender carefully rereads the works of William Dean Howells, Henry James, Elizabeth Stuart Phelps, Sarah Orne Jewett, Kate Chopin, Harold Frederic, Charles W. Chesnutt, Edith Wharton, and Ernest Hemingway, teasing from them a startling but utterly convincing preoccupation with questions of sexual selection. Competing for readership as novelists who best grasped the "real" nature of human love, these writers also participated in a heated social debate over racial and sexual differences and the nature of sex itself. Influenced more by *The Descent of Man* than by the *Origin of Species*, Bender's novelists built upon Darwin's anthropological and zoological materials to anatomize their character's courtship behavior, returning consistently to concerns with physical beauty, natural dominance, and the power to select a mate. Bringing the resources of the history of science and intellectual history to this, the first full-length study of the impact of Darwin's theories in American literature, Bender revises accepted views of social Darwinism, American literary realism, and modernism in American literature, forever changing our perceptions of courtship and sexual interaction in American fiction from 1871 to 1926 and beyond.

The Awakening Time Diana M. Olson 2019-03-15 The author

intuitively knew that she and her “new” man were brought together for a very special purpose, prompting matrimony and mid-life career changes to become hypnotherapists; it's as if a higher power sweeps them into a 180 degree spin and a whirlwind of learning experiences. A visit to a psychic fair and a visit to a rock and gem shop thrusts them headlong into an incredible world of rocks and crystals, automatic writing and channeling, awakening psychic abilities and giving them inspiration to teach others how to reach beyond their present realities. And a small quartz crystal “tells” of an ancient promise, as vow to meet in this, “The Awakening Time”. Conversations with spiritual guides contain a wealth of information almost too incredible to grasp. A must for both beginner and experienced “seekers.”

The Happiness That Needs Nothing Colin Drake 2014-11-08 This book is about the innate happiness and joy that can be discovered on awakening by becoming 'Aware of' and 'identifying with' Awareness. This is to be achieved by direct investigation of moment-to-moment experience which readily reveals the Pure Awareness that underlies our existence. This leads to discovering the happiness that needs nothing external to ourselves, but which is revealed as we undertake deeper investigations into this Awareness. Many of the following chapters give the format for some of these and how what is discovered applies to day to day living.

Comparing Husserl's Phenomenology and Chinese Yogacara in a Multicultural World Jingjing Li 2022-04-07 While phenomenology and Yogacara Buddhism are both known for their investigations of consciousness, there exists a core tension between them: phenomenology affirms the existence of essence, whereas Yogacara Buddhism argues that everything is empty of essence (svabhava).

How is constructive cultural exchange possible when traditions hold such contradictory views? Answering this question and positioning both philosophical traditions in their respective intellectual and linguistic contexts, Jingjing Li argues that what Edmund Husserl means by essence differs from what Chinese Yogacarins mean by svabhava, partly because Husserl problematizes the substantialist understanding of essence in European philosophy. Furthermore, she reveals that Chinese Yogacara has developed an account of self-transformation, ethics and social ontology that renders it much more than simply a Buddhist version of Husserlian phenomenology. Detailing the process of finding a middle ground between the two traditions, this book demonstrates how both can thrive together in order to overcome Orientalism.

The Awakening of Hope Jonathan Wilson-Hartgrove 2012-08-21 According to Jonathan Wilson-Hartgrove, faithful action is always inspired and sustained by common convictions—the basic truths that have sustained God's people throughout every generation. The Awakening of Hope re-presents Christian faith by beginning with stories of faithful witness and asking, Why? Why do Christians eat together? Why do we fast? Why would we rather die than kill? These are the questions that help us see why creation and the fall, covenant

and community, ethics and evangelism matter. This book and its accompanying DVD project is a contemporary catechism, celebrating lives and stories that wouldn't make sense if the gospel were not true. And then going one step further, this project shares the good news of Jesus and the way of life that he makes possible.

The Path of Kabbalah Michael Laitman 2005-01-01 Kabbalists state that there is no reality at all, but something called His Essence, the Upper Force, and this is what we perceive as our world. As uncanny as it sounds, this notion hides in its wings the very prospect of freedom, for every person, for every nation, and for the entire world. The structure and the perception of reality are the surface of this book. But the story of humanity, or more accurately, of the human soul, is the undercurrent that drives the reader forward in this book. It is about you, about me, about all of us. This book is about the way we were, the way we are, the way we will be, and most importantly, it is about the best way to get there. In this neatly structured composition, every part speaks of a different aspect of Kabbalah. It starts with our perception of reality, our perception of the Creator, and the evolution of our soul in the spiritual worlds (including explanatory drawings). The book also clears up misconceptions about Kabbalah and explains, in plain words, how to experience the spiritual realm of our lives.
